

New Jersey's Clean Energy Program™

PROGRAM GUIDELINES

- Applicant must be a customer of one of the following electric utilities: Atlantic City Electric; Jersey Central Power & Light; PSE&G Electric; Rockland Electric Company.
- Valid for select ENERGY STAR® qualified clothes washers purchased between now and December 31, 2008.
- Completed rebate requests must be postmarked no later than January 31, 2009.
- Rebate request must be accompanied by proof of purchase (legible copy of dated sales receipt).
- Rebate request must include store name, manufacturer, ENERGY STAR model number, serial number and purchase price.
- Limit one rebate per customer for purchases under this program.
- Unit must be installed in New Jersey.
- Offer limited to new products only.
- Rebates are subject to available funds.
- In addition to having a minimum MEF of 2.2, all select clothes washers must be listed as ENERGY STAR qualified on njcleanenergy.com/clotheswashers.

The ENERGY STAR Clothes Washer Rebate is one of many offerings from New Jersey's **Clean Energy Program™**. To learn more about other energy saving programs and incentives, please visit:

New Jersey's Clean Energy Program™

Purchase a **Select** ENERGY STAR® Qualified Clothes Washer

With a **Modified Energy Factor (MEF)**
of **2.2 or Higher** and Receive a
\$75 Rebate*!

**YOU Can Save Energy, Save Money and Help
Protect the Environment by Purchasing an
ENERGY STAR Clothes Washer**

New Jersey's **Clean Energy** Program™ is rewarding customers who purchase the most efficient ENERGY STAR qualified clothes washers with a mail-in rebate. This offer only applies to **select** ENERGY STAR qualified models as listed on njcleanenergy.com/clotheswashers.

For a limited time only, get \$75 back from New Jersey's **Clean Energy** Program™ on the purchase of eligible ENERGY STAR qualified clothes washers with a **Modified Energy Factor (MEF) of 2.2 or higher**. The MEF measures energy consumption of the total laundry cycle (washing and drying). It indicates how many cubic feet of laundry can be washed and dried with one kWh of electricity; the higher the number, the greater the efficiency.

**These washers use on average 43% less energy and
75% less water than a conventional model.**

High-efficiency Specifications for Clothes Washers

	Level	MEF
	Federal Standard	1.26
	ENERGY STAR	1.72
GOOD	Tier 1**	1.80
BETTER	Tier 2	2.00
BEST	Tier 3	2.20

**Tier 1, 2, and 3 clothes washers are all ENERGY STAR qualified.

For additional information about this offer, contact:
1-866-NJSMART or visit njcleanenergy.com

*Limit one \$75 rebate per customer.
See Program Guidelines on back for additional requirements.
Qualified Clothes Washer must be listed on
njcleanenergy.com/clotheswashers
or ask your retailer for more information.
