

October 1, 2014

Dear Consumers:

Thank you for your commitment to New Jersey's residential energy efficient product programs. We appreciate your participation and your efforts to reduce New Jersey's energy dependence. This notice includes important changes for Fiscal Year (FY) 2015.

The following FY 2015 key program changes will go into effect **November 1, 2014**.

- **NEW REBATE:** Gas and electric ENERGY STAR® qualified clothes dryers will be eligible for a \$100 rebate for purchases made between November 1, 2014 and June 30, 2015. Please visit NJCleanEnergy.com/DRYERS on November 1st to download an application and the complete list of eligible clothes dryers.
- The proposal to raise the eligibility criteria for refrigerators is currently postponed. The requirement to receive a \$50 rebate after the purchase of a new ENERGY STAR qualified refrigerator will continue to be 25% or better than the 2001 federal standard with the addition of models listed on the current ENERGY STAR certified list. The updated applications and eligible refrigerators list will be available on NJCleanEnergy.com/FRIDGEREBATE.
- All retailers are encouraged to make customers aware of the Refrigerator/Freezer Recycling Rebate of \$50 when recycling an old, working refrigerator. More information is available at NJCleanEnergy.com/REFRIGERATOR.

If you have any questions regarding these changes, please contact us at 866-NJSMART.
