

**INVITATION FOR QUESTIONS ON THE FY2016 RENEWABLE ELECTRIC STORAGE
INCENTIVE PROGRAM**

As noted in an announcement distributed to this listserv earlier this month, the New Jersey Board of Public Utilities has approved an FY2016 Renewable Electric Storage Incentive Program that will begin accepting applications on March 1, 2016. A summary of the program's key elements is posted on the NJCEP website at <http://www.njcleanenergy.com/storage>.

Board Staff is currently preparing a Frequently Asked Questions (FAQ) document regarding the program that will be publicly shared with the renewable electric storage community. Board staff invites stakeholders to submit their questions for inclusion in this FAQ document. Questions should be submitted via email to storage@njcleanenergy.com by 5:00 pm on Friday, February 5. The FAQ document will be posted shortly thereafter on the NJCEP website page noted above. This invitation is for questions only; suggestions for changes in the program cannot be accommodated at this time.
