CLEAN ENERGY

IN THE MATTER OF A SUCCESSOR SOLAR INCENTIVE PROGRAM PURSUANT TO P.L. 2021, c. 169)	ORDER WAIVING ADI PROGRAM ELIGIBILITY RULES
)	
)	DOCKET NO. QW22030128
IN THE MATTER OF THE CLEAN ENERGY PETITION OF POWER ENERGY SOLUTIONS SEEKING A WAIVER OF THE ADI PROGRAM ELIGIBILITY REQUIREMENTS WITH RESPECT TO CERTAIN RESIDENTIAL PROJECTS: SHANNON BAUER/NJADRE1552609720 TOM GUITAN/NJADRE1549844101 et al. ¹)	DOCKET NO. QW24020107

Parties of Record:

Brian O. Lipman, Esq., Director, New Jersey Division of Rate Counsel
Brittany W. DeBord, Esq. on behalf of Power Energy Solutions LLC²

BY THE BOARD:³

By this Order, the New Jersey Board of Public Utilities (“Board”) considers a limited waiver of N.J.A.C. 14:8-11.4(b) to permit projects that received Permission to Operate (“PTO”) prior to the opening of the Administratively Determined Incentive (“ADI”) Program, or those that began construction prior to their acceptance into the ADI Program, eligibility for the ADI Program incentive. The Board also considers a limited waiver of N.J.A.C. 14:8-11.5(k), which forbids an increase in generation capacity by more than twenty percent (20%) or twenty-five (25) kWdc, whichever is smaller, over the size indicated in the registration accepted into the ADI Program.⁴

¹ The petitions addressed in this Order are identified in Appendix A.

² The complete list of Parties of Record can be found in Appendix B.

³ Commission Marian Abdou recused herself due to a potential conflict of interest and as such took no part in the discussion or deliberation of this matter.

⁴ See Appendix C for next steps for each project addressed in this Order.

BACKGROUND

On July 9, 2021, Governor Murphy signed the Solar Act of 2021 (“Solar Act”).⁵ The Solar Act directed the Board to establish a program to incent the development of at least 3,750 megawatts (“MW”) of new solar by 2026.

On July 28, 2021, following an extensive stakeholder process, the Board approved the creation of the Successor Solar Incentive (“SuSI”) Program, consisting of the ADI Program and the Competitive Solar Incentive Program.⁶ The ADI Program launched on August 28, 2021, and is open to residential projects, net metered non-residential projects equal to or less than five (5) MW, and community solar projects. The Board expressly limited ADI Program eligibility to projects that had not yet commenced construction, stating that “projects seeking eligibility in the ADI Program are required to submit a complete ADI Program registration package and receive a notice of conditional registration prior to beginning construction on the facility.”⁷ The Board’s ADI rules, N.J.A.C. 14:8-11.1 to -11.9 (“ADI Rules”), which took effect February 22, 2022, codify this prohibition and further prohibit solar generation facilities from registering in the ADI Program if they commenced commercial operation prior to the opening of the ADI Program registration portal.

The ADI Program shall only be open to new facilities that have not commenced commercial operation prior to the opening of the ADI Program registration portal . . . Additionally, facilities seeking eligibility in the ADI Program must submit a registration and receive a notice of conditional registration pursuant to N.J.A.C. 14:8-11.5(g) prior to beginning construction on the facility, unless the Board grants a waiver in response to a petition.

[N.J.A.C. 14:8-11.4(b).]

The ADI Rules also limit increases in project generating capacity after registration in the ADI Program to 20 percent or 25 kWdc, whichever is smaller.⁸ “Facilities shall not be permitted to increase their generating capacity by more than 20 percent or 25 kWdc, whichever is smaller.” [N.J.A.C. 14:8-11.5(k).]

Pursuant to the ADI Rules, the Board makes an annual allocation of capacity to each market segment established in the ADI Program. N.J.A.C. 14:8-11.7. The annual allocation of capacity to market segments for Energy Year 2025 (“EY25”), which commenced on June 1, 2025, was updated by Order dated May 22, 2024.⁹ The Board allocated the EY24 residential net metered

⁶ In re a New Jersey Solar Transition Pursuant to P.L. 2018, c. 17, BPU No. QO19010068, Order dated July 28, 2021 (“SuSI Program Order”).

⁷ SuSI Program Order at 50.

⁸ See N.J.A.C. 14:8-11.5(k), 55 N.J.R. 12(2) (Dec 18th 2023).

⁹ In re a Successor Solar Incentive Program Pursuant to P.L. 2021 c.169, BPU No. QO20020184; In re Certification of Energy Year 2023 Cost Cap Calculation and Setting ADI Program Megawatt Blocks for

market segment to have a total capacity of 200 MWdc.

On February 14, 2024, the Board issued an Order waiving the requirements that project be accepted into the ADI Program prior to commencing construction and that a project not commence construction prior to the launch of the ADI Program.¹⁰ In that Order, the Board stated that after the end of the Energy Year 2024 (May 31, 2024), the Board would expect to see a rationale for a waiver other than installer error, supply chain delays caused by COVID 19 and the confusion with requirements from the predecessor program.

PETITIONS

As of May 31, 2024, the Board had received 110 petitions from customers and developers, which collectively represent 381 projects that seek a waiver of the Board's rules to participate in the ADI Program.¹¹

Of these projects, 348 received PTO prior to the receipt of the notice of conditional registration, which necessarily entails having commenced construction prior to receipt. An additional thirteen (13) projects received PTO prior to ADI Program launch. For these 361 projects, petitioners seek a waiver of N.J.A.C. 14:8-11.4(b) in order to register in the ADI Program. Petitioners contended that they have invested in solar projects at their homes and businesses in good faith and should be allowed to participate in the ADI Program to receive an incentive. Some alleged that they relied on their installers for completion of program requirements and were failed by them. The installers continue to cite challenges caused by the COVID-19 pandemic along with confusion regarding the new procedures applicable to the ADI Program, as reasons for projects failing to meet the requirements of the ADI Rules.

There are also twenty (20) projects among the petitions that are seeking approval of solar electric generation facilities at a capacity that exceeds the size submitted in the initial registration package by more than twenty percent (20%). These petitions seek a waiver of the ADI rules at N.J.A.C. 14:8-11.5(k).

Pending direction from the Board, the ADI registration processing team will not move forward in processing the 381 projects.

DISCUSSION AND FINDINGS

A majority of the projects considered in this order commenced construction, as evidenced by receipt of PTO, without receiving notice of conditional registration. A few projects received PTO

Energy Year 2025, BPU No. QO24020117; In re the Establishment of a Remote Net Metering Segment in the ADI Program Pursuant to P.L. 2023, c.190, BPU No. QO24030197, Order dated May 22, 2024.

¹⁰ In re a Successor Solar Incentive Program Pursuant to P.L. 2021, c. 169, BPU Docket No. QW22030128 and In re the Verified Petition of Sunpower Corporation for a Waiver of N.J.A.C. 14:8-11.4(b) as applied to Certain Applications to the Administratively Determined Incentive (ADI) Program NJADRE1550129709 et al., BPU Docket No. QW23050290 Order dated February 14, 2024 ("February 14 Order").

¹¹ All projects addressed in this Order are identified in Appendix C along with next steps. Two (2) petitioners (Docket Nos. QW24060388 and QO24030189) submitted pro se petitions for waivers, but their projects were also included in their developer's petition, essentially making them duplicates. As they will receive relief under the developer's petition, their pro se petitions are deemed moot. See project numbers 56 and 145 (respectively) in Appendix C.

prior to the opening of the ADI registration portal. The prohibition on registration after starting construction is designed to ensure that solar incentives go only to projects that need incentives. This provision also recognizes the structure of the ADI Program in blocks of available capacity. It is intended to ensure that, when confronted with the impending full subscription of an ADI Program MW block and the closure of a market segment to new registrations, developers will not rush to construct projects prior to registration in the hope that commencement of construction without a valid registration would lock in an incentive value.

These continue to be valid policy goals. Nonetheless, some flexibility in the application of this restriction is warranted, although the time for such flexibility is coming to an end. The solar incentive program changed twice within the space of three (3) years, and there has been some confusion regarding the requirements of the different programs. For instance, the MW caps included in the ADI Program did not previously exist. The Board has previously recognized the justification for some flexibility under these circumstances;¹² in the February 14 Order, the Board extended such flexibility to petitions filed, like those addressed in this Order, by the last day of Energy Year 2024.

The Board's rules state that "[i]n special cases and for good cause shown, the Board may . . . relax or permit deviations from these rules." N.J.A.C. 14:1-1.2(b). The rules go on to explain that "[t]he Board shall, in accordance with the general purpose and intent of the rules, waive section(s) of the rule if full compliance with the rule(s) would adversely affect the ratepayers of a utility or other regulated entity, the ability of said utility or other regulated entity to continue to render safe, adequate and proper service, or the interests of the general public." N.J.A.C. 14:1-1.2(b)(1).

In launching the SuSI Program, the Board sought to provide a smooth transition to that program for projects already under development. As part of that effort, the Board provided in the SuSI Program Order that although the ADI Program was generally limited to new projects that had not yet begun construction, developers could file a petition with the Board to allow them to participate. That provision is codified in the ADI rules at N.J.A.C. 14:8-11.4(b), which contemplate and permit waivers of this provision to be granted by the Board. Subsequently, in the October 2022, April 2023 and February 14 Orders, the Board allowed projects that had registered in the ADI Program and had commenced construction prior to being accepted into the program to be eligible for incentives. As a result of their non-compliance with the ADI rules, the 348 projects that commenced construction prior to acceptance into the ADI Program would be denied incentives

¹² See, e.g., In re a Solar Successor Incentive Program Pursuant to P.L. 2018, c.17 – Order Modifying ADI Program Eligibility Conditions, BPU No. QO20020184, Order dated January 26, 2022 (allowing projects registered in the TI Program that had commenced construction but failed to meet the TI deadline for commercial operation to be eligible to apply to the ADI Program); In re a Successor Solar Incentive Program Pursuant to P.L. 2021, c. 169 - Order Waiving ADI Program Eligibility Rules, BPU Docket No. QW22030128, Order dated April 6, 2022 ("April 2022 Order") (granting a limited waiver of N.J.A.C. 14:8-11.4(b) to projects that had not previously registered in the TI Program but had commenced construction prior to receiving a conditional acceptance for an application in the ADI Program); In re a Successor Solar Incentive Program Pursuant to P.L. 2021, c. 169 Order Waiving ADI Program Eligibility Rules, BPU Docket No. QW22030128, Order dated October 12, 2022 (granting a limited waiver of N.J.A.C. 14:8-11.4(b) to projects that had not previously registered in the TI Program but had commenced construction prior to receiving a conditional acceptance for an application in the ADI Program); In re a Successor Solar Incentive Program Pursuant to P.L. 2021, c. 169 - Order Waiving ADI Program Eligibility Rules, BPU Docket No. QW22030128, Order dated April 26, 2023 ("April 2023 Order") (granting a limited waiver of N.J.A.C. 14:8-11.4(b) to projects that commenced construction prior to notice of conditional registration, for certain projects that commenced commercial operations prior to the launch of the program, and for certain projects that constructed systems greater than 10% larger than stated in their initial registration); February 14 Order.

absent a waiver by the Board. The Board **FINDS** that waiving the applicable rule for these projects will avoid stranding them without any incentive. The Board **FINDS** that facilitating the ability of the petitioners' projects to similarly participate in the ADI Program will benefit the customers. The Board **FURTHER FINDS** that waiving N.J.A.C. 14:8-11.4(b) for a limited class of solar electric generation facilities seeking admission into the ADI Program that began construction prior to receipt of the ADI notice of conditional registration is in the public interest. The public benefits from a smoothly functioning incentive program and from smooth transitions between such programs. In circumstances such as those present here, a smooth transition is furthered by limited waivers of rules that would otherwise have the unintended consequence of stranding solar facilities without an incentive. Moreover, as noted above, the MW caps included in the ADI Program did not previously exist and in the past, registrations were not denied because of insufficient capacity to accommodate additional installations.¹³ The Board **FINDS** that some flexibility is appropriate at the present time. With respect to the customers that began construction prior to receipt of the ADI notice of conditional registration and petitioned for relief, the Board **GRANTS** these petitions, and having found good cause, **HEREBY WAIVES** the prohibition against commencing construction prior to receipt of the ADI Program notice of conditional registration enumerated in N.J.A.C. 14:8-11.4(b).

However, as was noted in the February 14 Order, solar market participants must adapt to the current incentive program and its requirements. The ADI Program launched on August 28, 2021, approximately two and a half years ago. The federal COVID-19 Public Health Emergency was lifted on May 11, 2023.¹⁴ Governor Murphy lifted the Public Health Emergency earlier still, on March 4, 2022.¹⁵ The Board observed that the end of EY24 served as an appropriate end point for waiving N.J.A.C. 14:8-11.4(b) without a rationale that goes beyond the launch of the ADI Program, COVID-19-related delays, or developer error. February 14 Order at 10.

The Board is aware that the petitions include a project that has received PTO but has not yet submitted a registration in the ADI Program.¹⁶ The Board **DIRECTS** the petitioner that sought a waiver for an unregistered project to register such project and provide the Project Number and associated name and address to the Program Manager within thirty (30) calendar days of the effective date of this Order. The Board also **DIRECTS** the petitioner to upload a copy of this Order with their registration.

Going forward, the Board may decline to consider a waiver request for a project that has not registered with the ADI Program.

¹³ See N.J.A.C. 14:8-11.7, 54 N.J.R. 368(a) (Jan 26 2022).

¹⁴ <https://www.cdc.gov/coronavirus/2019-ncov/your-health/end-of-phe.html#:~:text=What%20You%20Need%20to%20Know,share%20certain%20data%20will%20change.>

¹⁵ Executive Order 292, <https://www.nj.gov/health/news/2022/approved/20220304a.shtml>

¹⁶ Customer, Raj Parikh, submitted a petition for a project seeking a waiver of the Board's eligibility rules because his developer, Solar Fix Pros LLC, did not submit the registration (Docket # QO24050354). See project number 355 in Appendix C.

With respect to the thirteen (13) projects that received PTO prior to the opening of the ADI registration portal and that petitioned the Board for a waiver of N.J.A.C. 14:8-11.4(b), the Board is cognizant that these projects achieved commercial operation during a time of novel challenges which affected many aspects of solar development. The Board closed one incentive program, opened and closed a second, and opened a third within the span of two (2) years. The Board **FINDS** that flexibility is warranted in this matter, and that deviation from the strict application of the rule provision is reasonable and appropriate. The Board **FINDS** that at this point in the progression of the Board's solar incentive programs, and under these specific circumstances, the non-compliance of these projects with the provisions of N.J.A.C. 14:11-4(b) prohibiting commercial operation prior to the opening of the ADI Program should not render them ineligible.

Therefore, having considered the petitions seeking a waiver of the prohibition on getting PTO prior to the opening of the ADI Program, the Board **GRANTS** these petitions, and having found good cause, **HEREBY WAIVES** the prohibition against commencing commercial operations prior to the opening of the ADI Program registration portal by the Board enumerated in N.J.A.C. 14:8-11.4(b) for the projects identified in this Order. The Board also recognizes that as a result of this waiver, these projects will benefit from an incentive for which they would not otherwise qualify. Thus, the Board **FURTHER FINDS** good cause, under these particular facts and circumstances, to modify the date on which the Solar Renewable Energy Certificate-II ("SREC-II") qualification life begins. Therefore, the Board **HEREBY WAIVES** N.J.A.C 14:8-11.6(a) to the extent necessary to permit the fifteen (15)-year SREC-II qualification life for these projects to commence on August 28, 2021, the first day of ADI Program registration opening, rather than on the date of commercial operation.

With respect to the twenty (20) projects seeking a waiver of the prohibition on exceeding their approved registration capacity by over twenty percent 20%, the Board notes that the rule governing size increases following registration has already been amended to raise the size of an allowable increase from ten percent (10%) to twenty percent (20%).¹⁷ The rule provision at issue is designed to ensure that project capacity aggregated across solar facilities within an ADI market segment does not exceed the amount of capacity allocated to that market segment by the Board.

Staff has noted that as of January 13, 2025, approximately 133 MWdc of the net-metered residential market segment capacity is subscribed.¹⁸ Although the capacity registered at this time does not approach the capacity cap allocated for EY25, the Board **FINDS** that this rate of registration means that this market segment could be fully subscribed before the end of EY25. The Board declines to further relax the application of this rule. The Board **FINDS** that there is no good cause to waive this rule and therefore **DENIES** these petitions.

The Board encourages these specific petitioners to withdraw their existing registrations and re-register their projects at their increased size.¹⁹ For any such project identified in this Order that re-registers, the Board **HEREBY WAIVES** the prohibition on commencing construction prior to acceptance at N.J.A.C. 14:8-11.4(b). The Board **DIRECTS** Staff to continue to monitor the rate at which capacity is registered in the ADI market segment.

¹⁷ See N.J.A.C. 14:8-11.5(k), 55 N.J.R. 12(2) (Dec 18th 2023).

¹⁸ <https://njadi.programprocessing.com>

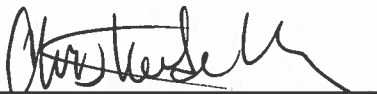

¹⁹ See projects 359 – 378 in Section 4 of Appendix C.

The Board notes that the relief granted in this Order is predicated upon the specific facts and circumstances alleged by the petitioners. As noted above, the Board has found that as of May 31, 2024, requests for waiver of N.J.A.C. 14:8-11.4(b) require a rationale that goes beyond the impacts of COVID-19 and the programmatic changes of 2020-2021 if they are to be granted. Developers which continue to fail to comply with these rules will find themselves faced with the need to explain to their customers the reason that these customers will not receive the incentives available to them through the ADI Program at the time they registered.

The effective date of this Order is February 5, 2025.

Appendix C

The Projects are divided into the following 5 sections based on next steps required for registration in the ADI Program. Each section is organized by the developer and then by the customer.

Next Steps - Sections	Project Number
1. Valid Registration - Program Manager to Process	1 - 218
2. Registrant to Submit Final As-Built Paperwork to Program Manager	219-274
3. Registrant to Submit New Registration ¹	275-358
4. Registrant to Submit New Application with Full Capacity ²	359-378
5. No Relief Required; Application Processed	379-381

Section 1: Valid Registration - Program Manager to Process

No.	Developer	Customer Name	Registration No.	Docket No.	Relief Requested
1	1st Light Energy Inc	Safeguard Self Storage (Robert Labrier)	NJADRE1553735122	QW24050324	PTO prior to ADI conditional approval
2	Advanced Solar & Energy Solutions LLC	Anand Badami	NJADRE1551015925	QW24060384	PTO prior to ADI conditional approval
3	Advanced Solar & Energy Solutions LLC	Douglas Woelfel	NJADRE1554504751	QO24050345	PTO prior to ADI conditional approval
4	Advanced Solar & Energy Solutions LLC	Robert Longo	NJADRE1552274726	QO24050350	PTO prior to ADI conditional approval
5	Bachman's Roofing	Kai Huang	NJADRE1554424970	QW24060382	PTO Prior to Launch of ADI Program
6	Bachman's Roofing	Kai Huang	NJADRE1553216308	QW24060382	PTO Prior to Launch of ADI Program
7	Bachman's Roofing	Michael Iannitelli	NJADRE1552440466	QW24040218	PTO prior to ADI conditional approval
8	Big Shine Worldwide, Inc.	Ninon Realty LLC (Golam Bhuiyan)	NJADRE1555948289	QW24050287	PTO prior to ADI conditional approval
9	CE Team, Inc.	Madhu Rangaiah	NJADRE1555968396	QW24050360	PTO prior to ADI conditional approval
10	Complete Solar	Laura Clark	NJADRE1549219337	QW24050363	PTO Prior to Launch of ADI Program
11	Empower Energy Solutions Inc.	Ilana Kriegsman Millman	NJADRE1555052954	QW24050312	PTO prior to ADI conditional approval
12	EMT Renewables	Robert Rogalsky	NJADRE1549931843	QO24040230	PTO prior to ADI conditional approval
13	Evergreen Energy	Yisroel Berkowitz	NJADRE1551998033	QW24050327	PTO prior to ADI conditional approval
14	Exact Solar	Kate Fukawa-Connelly	NJADRE1552321341	QO24020111	PTO prior to ADI conditional approval
15	Exact Solar	Michael Jong	NJADRE1551877859	QO24040210	PTO prior to ADI conditional approval

¹⁻² Waiver is subject to petitioners (1) registering the projects within 20 calendar days of the effective date of the Order and (2) uploading a copy of the Board Order with the registration of each project.

16	FAL Solar System, Inc.	Jaykar and Hina Patel	NJADRE1554894791	QO24050340	PTO prior to ADI conditional approval
