NOTICE

**IN THE MATTER OF THE CLEAN ENERGY PROGRAM
COMMERCIAL & INDUSTRIAL ENERGY EFFICIENCY PROGRAMS**

COMBINED HEAT & POWER AND FUEL CELLS

As of **December 11, 2015**, *New Jersey's Clean Energy Program* will temporarily cease accepting applications for the Combined Heat & Power and Fuel Cell Program (CHP/FC). The CHP/FC program has experienced a surge in applications since the start of FY16 and has a pipeline that currently exceeds the CHP/FC Board-approved program budget. Staff is currently reviewing potential funding reallocations among programs to continue the program in the near term.

In light of the recent release of the Updated 2011 Energy Master Plan, the increased interest supports the State's ongoing commitment of expanding CHP/FC and distributed generation resources, and Staff will reevaluate the program rules, incentives and eligibility requirements in order to improve and enhance the program.

Future Combined Heat & Power and Fuel Cell Program status updates will be posted on the NJ Clean Energy Program website at: www.NJCleanEnergy.com.
