Project up to	t completion is defined pursuant to th and including having subscribers receive	e definition at bill credits for	N.J.A.C. 14:8- their subscrip	9.3 as being fully operational, ption to the project.
The pr	oposed community solar facility is an exif "Yes," the Application will not be provisions for projects having receive prior to February 19, 2019. *Existing project is defined in N.J.A.C. been approved by the Board for cor 2019.	considered by a subsection	the Board. S (t) conditions olar project h	See section B. XIII. for special all certification from the Board
VII. Co	mmunity Solar Facility Siting			
1.	The proposed community solar project of "Yes," attach proof of site control. If "No," the Application will be deemed *Site control is defined as property of lease, or signed contract for use as a community solar site.	d incomplete.	tion to purch	ase. signed lease or option to
2.	The proposed community solar facility If "Yes," the Application will not be con	********************	************	nole, on preserved farmland*
		•		

*Preserved farmland is defined in N.J.A.C. 14:8-9.2 as land from which a permanent development easement was conveyed and a deed of easement was recorded with the county clerk's office pursuant to N.J.S.A. 4:1C-11 et seq.; land subject to a farmland preservation program agreement recorded with the county clerk's office pursuant to N.J.S.A. 4:1C-24; land from which development potential has been transferred pursuant to N.J.S.A. 40:55D-113 et seq. or N.J.S.A. 40:55D-137 et seq.; or land conveyed or dedicated by agricultural restriction pursuant to N.J.S.A. 40:55D-39.1.

3.	The proposed community solar facility is located, in part or in whole, on Green Acres preserved open space* or on land owned by the New Jersey Department of Environmental Protection (NJDEP)
	If "Yes," the Applicant must attach special authorization from NJDEP for the site to host a community solar facility. The Board will not consider Applications for projects located, in part or in whole, on Green Acres preserved open space or on land owned by NJDEP, unless the Applicant has received special authorization from NJDEP and includes proof of such special authorization in the Application package. *Green Acres preserved open space is defined in N.J.A.C. 14:8-9.2 as land classified as either
	"funded parkland" or "unfunded parkland" under N.J.A.C. 7:36, or land purchased by the State with "Green Acres funding" (as defined at N.J.A.C. 7:36).
4.	The proposed community solar facility is located, in part or in whole, on land located in the New Jersey Highlands Planning Area or Preservation Area ☐ Yes № No
5.	The proposed community solar facility is located, in part or in whole, on land located in the New Jersey Pinelands ☐ Yes ☑ No
6.	The proposed community solar facility is located, in part or in whole, on land that has been actively devoted to agricultural or horticultural use and that is/has been valued, assessed, and taxed pursuant to the "Farmland Assessment Act of 1964," P.L. 1964, c.48 (C. 54:4-23.1 et seq.) at any time within the ten year period prior to the date of submission of the Application Yes No
7.	The proposed community solar facility is located, in part or in whole, on a landfill
	If "Yes," provide the name of the landfill, as identified in NJDEP's database of New Jersey landfills, available at www.nj.gov/dep/dshw/lrm/landfill.htm :
8.	The proposed community solar facility is located, in part or in whole, on a brownfield
	If "Yes," has a final remediation document been issued for the property? Yes No

If "Yes," attach a copy of the Response Action Outcome ("RAO") issued by the LSRP or the No Further Action ("NFA") letter issued by NJDEP.

9	. The proposed community solar facility is located, in part or in whole, on an area of historic fill ——————————————————————————————————
	If "Yes," have the remedial investigation requirements pursuant to the Technical Requirements for Site Remediation, N.J.A.C. 7:26E-4.7 been implemented?
10). The proposed community solar facility is located on a parking lot
11	The proposed community solar facility is located on a parking deck ☐ Yes ☑ No
12	. The proposed community solar facility is located on a rooftop
13	. The proposed community solar facility is located on a canopy over an impervious surface (e.g. walkway) ☐ Yes ☑ No
14	. The proposed community solar facility is located on the property of an affordable housing building or complex
15	The proposed community solar facility is located on a water reservoir or other water body ("floating solar")
16.	The proposed community solar facility is located on an area designated in need of redevelopment
	If "Yes," attach proof of the designation of the area as being in need of redevelopment from a municipal, county, or state entity.
17.	The proposed community solar facility is located on land or a building that is preserved by a municipal, county, state, or federal entity
18.	The proposed community solar facility is located, in part or in whole, on forested lands ☐ Yes ☑ No

	Construction of the proposed community solar facility will require cutting down one or more trees
	If "Yes," estimated number of trees required to be cut for construction:
1	9. The proposed community solar facility is located on land or a building owned or controlled by a government entity, including, but not limited to, a municipal, county, state, or federal entity
20	O. Are there any use restrictions at the site?
	Will the use restriction be required to be modified? ☐ Yes ☑ No If "Yes," explain the modification below.
21	. The proposed community solar facility has been specifically designed or planned to preserve or enhance the site (e.g. landscaping, land enhancements, pollination support, stormwater management, soil conservation, etc.)
VIII. Pe	rmits
1.	The Applicant has completed NJDEP Permit Readiness Checklist, and submitted it to NJDEP's PCER
	PCER

If "No," the Application will be deemed incomplete. Exception: Applications for community solar projects located on a rooftop, parking lot, or parking structure are exempt from this requirement.

- 3. Please list all permits, approvals, or other authorizations that will be needed for the construction and operation of the proposed community solar facility pursuant to local, state and federal laws and regulations. Include permits that have already been received, have been applied for, and that will need to be applied for. The Applicant may extend this table by attaching additional pages if necessary. These include:
 - a. Permits, approvals, or other authorizations from NJDEP (i.e. Land Use, Air Quality, New Jersey Pollutant Discharge Elimination System "NJPDES", etc.) for the property.
 - Permits, approvals, or other authorizations from NJDEP (i.e. Land Use, Air Quality, NJPDES, etc.) directly related to the installation and operation of a solar facility on this property.
 - Permits, approvals, or other authorizations other than those from NJDEP for the development, construction, or operation of the community solar facility (including local zoning and other local and state permits)

An Application that does not list all permits, approvals, or other authorizations that will be needed for the construction and operation of the proposed community solar facility will be deemed incomplete.

If a permit has been received, attach a copy of the permit.

\vdash	
4.	based on the capacity hosting map as published at the date of submission of the Application, there is sufficient capacity available at the proposed location to build the proposed community solar facility
	If "Yes," include a screenshot of the capacity hosting map at the proposed location, showing the available capacity.
- 26	If "No," the Application will be deemed incomplete.
Сог	nmunity Solar Subscriptions and Subscribers
A STATE OF	
1.	Estimated or Anticipated Number of Subscribers (please provide a good faith estimate or range):
2.	Estimated or Anticipated Breakdown of Subscribers (please provide a good faith estimate or
	range of the kWh of project allocated to each category):
	Industrial: Other: (define "other":)
3.	The proposed community solar project is an LML ansignet.
	The proposed community solar project is an LMI project*
	*An LMI project is defined pursuant to N.J.A.C. 14:8-9 as a community solar project in which a
	minimum 51 percent of project capacity is subscribed by LMI subscribers.
4.	The proposed community color action to the transfer of the tra
т,	The proposed community solar project will allocate at least 51% of project capacity to
	residential customers
5	The proposed community solar preject is being developed.
٠.	The proposed community solar project is being developed in partnership with an affordable
	housing provider: ☐ Yes ✓ No
	If "Yes," attach a letter of support from the affordable housing provider.
6.	An affordable housing provider is cooking to qualify as a second of the
	An affordable housing provider is seeking to qualify as an LMI subscriber for the purposes of the
	community solar project
	If "Yes," estimated or anticipated percentage of the project capacity for the affordable housing
	provider's subscription (provide an estimate or range):
	If "Voe " what engits and a sixt at a second
	If "Yes," what specific, substantial, identifiable, and quantifiable long-term benefits from the
	community solar subscription are being passed through to their residents/tenants?

Additionally, the affordable housing provider must attach a signed affidavit that the specific, substantial, identifiable, and quantifiable long-term benefits from the community solar subscription will be passed through to their residents/tenants. If "Yes," name of the anchor subscriber (optional): Estimated or anticipated percentage or range of the project capacity for the anchor subscriber's subscription: 8. Is there any expectation that the account holder of a master meter will subscribe to the community solar project on behalf of its tenants? ✓ Yes ☐ No If "Yes," what specific, identifiable, sufficient, and quantifiable benefits from the community solar subscription are being passed through to the tenants? Roduced rates Additionally, the account holder of the master meter must attach a signed affidavit that the specific, identifiable, sufficient, and quantifiable benefits from the community solar subscription will be passed through to the tenants. If "No," please be aware that, if, at any time during the operating life of the community solar project the account holder of a master meter wishes to subscribe to the community solar project on behalf of its tenants, it must submit to the Board a signed affidavit that the specific, identifiable, sufficient, and quantifiable benefits from the community solar subscription will be passed through to its tenants. 9. The geographic restriction for distance between project site and subscribers is: (select one) ☑ No geographic restriction: whole EDC service territory ☐ Same county OR same county and adjacent counties $\hfill \square$ Same municipality OR same municipality and adjacent municipalities Note: The geographic restriction selected here will apply for the lifetime of the project, barring special dispensation from the Board, pursuant to N.J.A.C. 14:8-9.5(a).

10. Froduct Offering The Applicant must also complete and attach one or more product offering
form(s) found in Appendix A. See Appendix A for exemptions.)
The subscription proposed offers guaranteed or fixed savings to subscribers Yes No
If "Yes," the guaranteed or fixed savings are offered as:
A percentage saving on the customer's annual electric utility bill
☐ A percentage saving on the customer's community solar bill credit
Other:
If "Yes," the proposed savings represent:
0% - 5% of the customer's annual electric utility bill or bill credit
☐ 5% - 10% of the customer's annual electric utility bill or bill credit
☐ 10% - 20% of the customer's annual electric utility bill or bill credit
over 20% of the customer's annual electric utility bill or bill credit
and 20% of the customer's annual electric utility bill or bill credit
The subscription proposed offers subscribers ownership or a pathway to ownership of a share of
the community solar facility
If "Yes," include proof of a pathway to ownership of a share of the community solar facility
offered to the subscribers in Appendix A.
11. The list of approved community solar projects will be published on the Board's website.
Additionally, subscriber organizations have the option of indicating, on this list, that the project
is currently seeking subscribers.
If this project is approved, the Board should indicate on its website that the project is currently
seeking subscribers
If "Yes," the contact information indicated on the Board's website should read:
Company/Entity Name: Carty Farm
Company/Entity Name: Carty Farm Contact Name: John Carty Daytime Phone: 610-527-3779 Email: johncarty@verizon.net
Email: Johncarty@verizon.net
Note: it is the responsibility of the project's subscriber organization to notify the Board if/when the
project is no longer seeking subscribers, and request that the Board remove the above information on
its website.
X. Community Engagement
1. The proposed community solar project is being developed by or in collaboration* with the
municipality in which the project is located
If "Yes," explain how and attach a letter of support from the municipality in which the project is
located.
*Collaboration with the municipality should include, at minimum, one or more meetings with
relevant municipal authorities and clear evidence of municipal authorities are also at a clear evidence of municipal authorities are also at a clear evidence of municipal authorities are also at a clear evidence of municipal authorities are also at a clear evidence of municipal authorities are also at a clear evidence of a c
relevant municipal authorities and clear evidence of municipal involvement and approval of the
design, development, or operation of the proposed community solar project.

local community organization(s) If "Yes," explain how and attach a letter of second community organization with a local community organization with the relevant local community organizations.	being developed in collaboration* with one or more Yes No Support from the local community organization(s). Sanization should include, at minimum, one or more nity organization(s) and clear evidence of the local diapproval of the design, development, or operation
consultative process* If "Yes," please describe the consultative pro *A community consultative process should i	developed, at least in part, through a community Yes No ocess. nclude, at minimum, one or more opportunities for nicipality and/or local community organizations.
XI. Project Cost	
 Provide the following cost estimates and att and/or spreadsheet models: 	ach substantiating evidence in the form of charts
Applicants are expected to provide a good faith e community solar project, as they are known at the information will not be used in the evaluation of	e time the Application is filed with the Board. This
Net Installed Cost (in \$)	
Net Installed Cost (in \$/Watt)	
Initial Customer Acquisition Cost (in \$/Watt)	
Annual Customer Churn Rate (in %)	

Annual Operating Expenses (in c/kWh)	
LCOE (in c/kWh)	

 Pursuant to N.J.A.C. 14:8-9.7(q), "community solar projects shall be eligible to apply, via a onetime election prior to the delivery of any energy from the facility, for SRECs or Class I RECs, as applicable, or to any subsequent compensations as determined by the Board pursuant to the Clean Energy Act."

For indicative purposes only, please indicate all local, state and federal tax incentives which will be applied to if the proposed community solar project is approved for participation in the Community Solar Energy Pilot Program:

XII. Ot	her Benefits
1.	The proposed community solar facility is paired with another distributed energy resource: a. Micro-grid project
2.	The proposed community solar facility provides grid benefits (e.g. congestion reduction)
	If "Yes" to any, please explain how and provide supporting documents.
4.	The proposed community solar project will create temporary or permanent jobs in New Jersey
	If "Yes," estimated number of temporary jobs created in New Jersey:
5.	The proposed community solar project will provide job training opportunities for local solar trainees
	Yes LI No

	If "Yes," identify the entity or entities through which job training is or will be organized (e.g. New Jersey GAINS program, partnership with local school):		
XIII. Special Authorizations and Exemptions			
1.	Is the proposed community solar project co-located with another community solar facility (as defined at N.J.A.C. 14:8-9.2)?		
2.	Does this project seek an exemption from the 10-subscriber minimum?		
3.	Specific sections throughout the Application Form are identified as optional only if: 1) the Applicant is a government entity (municipal, county, or state), and 2) the community solar developer will be selected by the Applicant via a RFP, RFQ, or other bidding process. Has the Applicant left those specific sections blank?		
4.	Has the proposed community solar project received, in part or in whole, a subsection (t) conditional certification from the Board prior to February 19, 2019?		

conditional certification if the proposed project is approved by the Board for participation in the Community Solar Energy Pilot Program.

Section C: Certifications

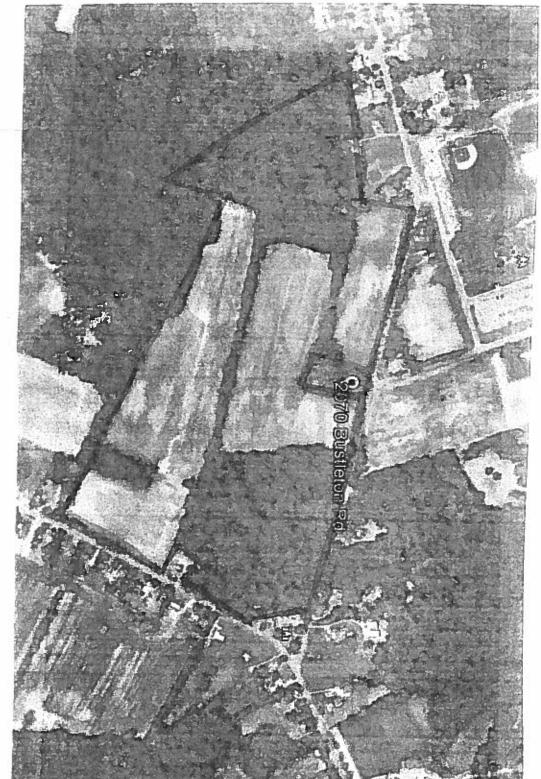

Instructions: Original signatures on all certifications are required. All certifications in this section must be notarized.

Applica	nt Certification		
The un	dersigned warrants, certifies, and represents that:	Proporty Dwaner, project	
1)	dersigned warrants, certifies, and represents that: 1, SOHN R. CARTY (name) am the Property (name) and here.	o'god Davidopat & DUNER
