

DIRECT INSTALL

Get paid for energy-efficiency upgrades to your business!

Sometimes, the biggest challenge to improving your business' energy-efficiency is getting started. With Direct Install, it's simple. Created specifically for existing small to mid-sized facilities, Direct Install is a turnkey project solution that makes it easy and affordable to upgrade to high-efficiency equipment. New Jersey's Clean Energy Program will provide you with a FREE energy assessment and a participating contractor will work with you to cut your facility's energy costs.

To dramatically improve your payback on the project, the program pays up to 80% of retrofit costs to facilities within an Urban Enterprise Zone, Opportunity Zone, owned or operated by a local government, K-12 public school, or designated as affordable housing. Other types of facilities receive an incentive up to 70% of retrofit costs.

Eligibility

- Existing small to mid-sized commercial and industrial facilities
- Average annual peak electric demand no greater than 200 kW over the last 12 months
- Must be located in New Jersey and served by one of the state's public, regulated electric or natural gas utility companies

Applicants must submit:

- 12 months of electric utility bills
- 12 months of gas utility bills

Eligible Electric & Gas Equipment*

- Lighting
- Lighting Controls
- Heating/Ventilation/Air-Conditioning (HVAC)
- HVAC Controls
- Variable Frequency Drives
- Refrigeration
- Motors
- Hot Water Conservation Measures

**Measures eligible for Direct Install are limited to specific equipment categories, types and capacities & reevaluated regularly to ensure the best energy solutions for your facility.*

See the reverse side to learn more about the steps to savings with the Direct Install program.
