SUBMISSION INSTRUCTIONS AND REQUIREMENTS

- A complete application package should include:**
 - This completed FY20 Pre-Qualification Application form signed by an authorized representative of the company/entity listed as Applicant.
 - Completed Pre-Qualification Monthly Usage Spreadsheet (available for download at www.NJCleanEnergy.com/LEUP) with monthly breakdown of usage for all investor-owned utility accounts within the state of NJ owned by the Applicant company/entity listed on this form for the period July 2018 through June 2019. Monthly utility summaries should be submitted in Excel format.

Please submit all completed and signed applications via one of the methods listed on page 2 of this form. Enrollment applications will be received on a first-come, first-served basis dependent upon program funding.
- All energy usage and other data must be for the 12 monthly utility bills received in fiscal year 2019 (July 2018 through June 2019). Total kWh, peak KW and therm usage figures will be found on monthly utility invoices provided by your electric and gas supplier. Note, copies of actual utility bills do not need to be submitted with the application package.
- The total fiscal year NJ Clean Energy Program contribution calculation is calculated as follows - $(\$0.025905/\text{therm} \times \text{Total Facility Therm Usage} + \$0.003437/\text{kWh} \times \text{Total Facility kWh Usage})$.
- Eligible entities must have contributed a minimum of \$200,000 into NJ Clean Energy Program fund in fiscal year 2019 (July 2018 through June 2019) (aggregate of all buildings/sites) as described in number 3 above.
- Refer to the LEUP website at www.NJCleanEnergy.com/LEUP for eligibility requirements, instructions and templates for submitting an energy plan after the Pre-Qualification Application is approved.

OPTIONAL: INCREASE MAXIMUM INCENTIVE BY BANKING

Entities have the option of applying to bank two consecutive years of their total fiscal year NJ Clean Energy Program contributions in order to increase their qualifying NJCEP fund contributions.

In order to apply to exercise the banking option, entities:

- cannot have been awarded their maximum incentive commitment in the FY2018 LEUP; and
- must submit FY2018 monthly utility summaries (July 2017 through June 2018) in addition to the FY2019 summary (July 2018 through June 2019) as described above at "Submission Instructions and Requirements".

If these conditions are met, the maximum incentive can be calculated by combining the FY2019 maximum with the un-awarded portion of the FY2018 maximum. For the avoidance of doubt, banking of contributions to meet the minimum contribution threshold of \$200,000 (Item 6 above at "Submission Instructions and Requirements") is not permitted.
