

Large Energy Users Program

For a CLEANER and GREENER Future for New Jersey

New Jersey's Clean Energy Program empowers your choice for a clean energy future. It's true! By implementing energy efficient practices, you can help make a positive impact on our climate. LEUP supports the state's largest non-hospital commercial/industrial facilities to self-invest in energy efficiency projects.

Benefits

- Offers a flexible program structure
- Provides incentives for energy efficiency measures in existing facilities

Incentives*

- Savings of **\$0.33/kWh** PLUS
 - **\$3.75/therm** saved annually for non-lighting measures
 - **\$0.16/kWh** saved annually for lighting measures
- Up to **75%** of the total project cost
- Buydown to 2-year simple payback period

Eligibility

Available to large non-hospital, commercial & industrial facilities that pay a **minimum of \$5,000,000 in total annual energy costs** to New Jersey utilities.

* See [Program Guide](#) for details

Next Steps:

- 1** Submit application
- 2** Submit draft energy efficiency plan (optional)
- 3** Submit final energy efficiency plan
- 4** Confirm installations and submit documents
- 5** Incentives paid
