## **Electric Unitary HVAC Application**

### **Material Purchase Deadlines**

To be eligible for SmartStart Existing Buildings incentives, an applicant must have purchased the subject equipment on or prior to the relevant date set forth below, which is determined based upon which utility is providing the energy saved by the equipment.

| Utility Provider                   | Material Purchase Deadline |
|------------------------------------|----------------------------|
| PSE&G                              | 5/31/2021                  |
| All Other Investor-owned Utilities | 6/30/2021                  |

If your equipment is not eligible according to the above, visit <a href="www.NJCleanEnergy.com/Transition">www.NJCleanEnergy.com/Transition</a> for instructions regarding how to find a Utility-sponsored energy efficiency program that may suit your needs.

### **Application Instructions**

- 1. New to SmartStart? Download the SmartStart Program Guide or contact us at (866) NJSMART with questions.
- 2. Pre-approval is not required for Electric Unitary HVAC applications; however, Material purchase deadlines apply.
- 3. Ensure that the facility is eligible for participation in the program by reviewing a recent electric utility bill to confirm that Societal Benefits Charges are paid to an investor-owned utility under a commercial rate code.
- 4. Review all measure requirements to confirm that the equipment you are purchasing meets efficiency requirements and is eligible for an incentive.
- 5. If you need assistance with the development of a scope of work or do not know what type of equipment you need, consult the <u>Trade Ally List</u> to find a contractor who can assist you.
- 6. You or your contractor must complete the Electric Unitary HVAC application and the Excel incentive worksheet.
- 7. Submit the signed, completed form along with all supporting documentation listed in the Application Checklist to the program for review. An electronic version of this application is available through the online application portal. Please submit the application through a single method (online, email, mail, or fax).
- 8. We will review the submittal for completeness and contact you and your contractor (if listed) via email to retrieve any missing information or documentation.
- 9. An approval letter will be emailed to you and your contractor (if listed) indicating the approval date and estimated incentive amount set aside for your project.

## **Electric Unitary HVAC Application**

### **Enhanced Incentives**

Measure incentive rates listed on this form are doubled for equipment installed in existing buildings that meet at least one of the eligibility criteria listed below.

All projects are subject to an incentive cap equal to the applicant's cost for the project (material and labor). Enhanced incentives do not apply to lighting projects of any kind. To qualify for an enhanced incentive, documentation, as listed in the table below, must be provided with the application package demonstrating that the entity or building location meets at least one of the eligibility categories.

| Eligibility Basis       | Criteria   |
|-------------------------|--|
| Located in an           | The building where equipment is or will be installed must be located within the bounds of an Urban EnterpriseZone (UEZ).   |
| Urban                   | Please follow the steps below to confirm your facility is within the qualifying zone. The building location must be checked  |
| Enterprise              | against the NJ Community Asset Map.  |
| Zone (UEZ)              | <ol> <li>Enter the address of your building in the field at the top of the map.</li> </ol>   |
| <b>20116</b> (022)      | 2. Under the Layers menu on the left side of the screen, scroll down to <b>Urban Enterprise Zones</b> and <i>check</i>   |
|                         | to enable the layer.   |
|                         | 3. Print or save a screenshot of the page to include with your submission.   |
|                         | For the avoidance of doubt, companies do not need to become a Certified UEZ Business to be eligible for enhanced   |
|                         | incentives from NJCEP.   |
| Located in an           | The building where equipment is or will be installed must be located within the bounds of an Opportunity Zone(OZ). Please  |
| Opportunity             | follow the steps below to confirm your facility is within the qualifying zone. The building location must be checked against   |
| Zone (OZ)               | the <u>NJ Community Asset Map</u> .  |
|                         | <ol> <li>Enter the address of your building in the field at the top of the map.</li> </ol>   |
|                         | 2. Under the Layers menu on the left side of the screen, scroll down to <b>Opportunity Zones</b> and <i>check</i> to   |
|                         | enable the layer.  |
|                         | 3. Print or save a screenshot of the page to include with your submission.   |
| Affordable              | Any multifamily housing that an official document identifies as participating in a federal, state, or local affordable housing   |
| Housing                 | program. This includes, by way of example only, the New Jersey Department of CommunityAffairs listing of Affordable  |

## **Electric Unitary HVAC Application**

FY22 July 1, 2021 – June 30, 2022

| Application C | ìh | ec | kl | list |
|---------------|----|----|----|------|
|---------------|----|----|----|------|

| The fo | llowing documentation must be attached to all completed, signed applications: *Material purchase deadlines   |
|--------|--|
| apply. |  |
|        | For projects requesting enhanced incentives: Attach documentation demonstrating eligibility as described in the Enhanced Incentives section of this application.   |
|        | Excel Electric Unitary HVAC measure worksheet as provided on the NJ Clean Energy SmartStart program website.   |
|        | A recent copy of a full utility bill from a participating electric utility showing Societal Benefits Charge and commercial billing code.   |
|        | Name and account # of the customer listed on the application must match the name of the customer and account # listed on the utility bill.   |
|        | For projects where a utility account has not yet been established, the utility bill is not required with the initial application submission, however the customer will be required to submit a utility bill prior to incentive payment.  |
|        | An AHRI Certificate is required for new electric HVAC units. AHRI Certificates can be downloaded from <a href="http://www.ahridirectory.org">http://www.ahridirectory.org</a> .  |
|        | For A/C economizing controls and occupancy-controlled thermostats: Attach a manufacturer's specification sheet for proposed equipment listing both the thermostat and sensor.  |
| Applic | ation Process for Payment  |
| •      | project is already complete, please include the following additional documentation for approval and payment. note, a post inspection may be required prior to incentive being processed.  Material invoice   |
| П      | The invoice should include the model number of the equipment installed, quantity, and unit price.  Sufficient documentation must be submitted with the material invoice demonstrating the date of equipment purchase, such as a purchase order, if it is not clear on the material invoice.  Labor Invoice   |
|        | Labor/installation price must be listed separately from material price.  For projects that were self-installed by the participating customer, a signed letter on participating customer letterhead attesting to the start and end dates of the self-installation should be provided.   |
|        | Tax Clearance Certificate obtained from NJ Division of Taxation Instructions on applying for the certificate can be found at www.njcleanenergy.com/TCC. No incentive will be paid without receipt of a valid Tax Clearance Certificate. Certificates are valid for 180 days and must be valid on the date TRC signs off on the incentive. The name of the customer and tax ID number appearing on the tax clearance must align with the customer name listed on the provided utility bill and application. |
|        | W9 form, ST-4 or ST-5 Form. This form must be completed by the entity receiving incentive payment.  Certain private business entities may hold a "Sales Tax Exempt Organization Certificate (Form ST-5)."  This form applies solely to purchases of tangible personal property or services and does not exempt the entity from the requirement to submit the Application for Tax Clearance.  |

## **Electric Unitary HVAC Application**

FY22 July 1, 2021 – June 30, 2022

### **Incentive Rates and Requirements**

### **General Requirements:**

- 1. Efficiency requirements to comply with ASHRAE 90.1-2016.
- 2. Incentive calculation is based on the Electric Unitary HVAC equipment capacity at AHRI Certified Net Capacity and Rating at operating conditions; it is not based on the nominal Electric Unitary HVAC equipment capacity. This information will be provided on the certified AHRI documentation.
- 3. For Split Systems, both indoor and outdoor components must be replaced to qualify for an incentive.
- 4. If more than one efficiency qualification is present (ex: EER & IEER), equipment specification must meet or exceed both ratings.

### **Split and Packaged HVAC**

## **Electric Unitary HVAC Application**

FY22 July 1, 2021 – June 30, 2022

### **Occupancy-Controlled Thermostat**

- 1. Thermostat must be controlled via one of the following occupancy-based methods:
  - a. In-room occupancy sensors (single or dual technology)
  - b. Key card-based system
  - c. Check-in/check-out system requires door switch and in-room occupancy sensor.
- 2. Installation of a new thermostat is required. Retrofit of existing does not qualify for an incentive.

| Equipment Type  | Measure<br>Code | Controlled Unit Size | Incentive           |
|---|-----------------|----------------------|---------------------|
| Occupancy Controlled Thermostat for<br>Hospitality/Institutional Facilities | HVAC67          | Any Capacity         | \$75 per thermostat |

### **A/C Economizing Controls**

- 1. Incentive is offered for fuel use economizers that control consumption for the A/C unit by optimizing compressor cycles. This incentive is not intended for air-side economizers.
- 2. A manufacturer's specification sheet must be submitted with the application for the A/C fuel use economizer controller kit that will be installed on the HVAC unit.
- 3. All A/C economizing controls must be listed by UL or other OSHA approved Nationally Recognized Testing Laboratory (NRTL) in accordance with applicable US standards.

| Equipment Type                       | Measure<br>Code | Controlled Unit Size | Incentive     |

### NJ SmartStart Buildings Program Terms and Conditions – Existing Buildings

FY22 July 1, 2021 - June 30, 2022 v1.1

### Eligibility

- 1. This application package must be received by the Program Manager on or before *June 30, 2022* in order to be eligible for the fiscal year program (*July 1, 2021 June 30, 2022*) incentives. All participating customers are required to submit the most current application form. All submissions will be reviewed based on the current program requirements and incentive levels approved by the Board of Public Utilities.
- 2. Program Incentives are available to non-residential retail electric and/or gas service participating customers of New Jersey Utilities. A participating customer must pay Societal Benefits Charges under a New Jersey Utility account serving the fuel type (electric or gas) applicable to the specific Energy-Efficient Measure. Participating customers who have not contributed to the Societal Benefits Charge of the applicable New Jersey Utility are not eligible for incentives offered through this program. New Jersey Utilities include Atlantic City Electric, Jersey Central Power & Light, Rockland Electric Company, New Jersey Natural Gas, Elizabethtown Gas, PSE&G and South Jersey Gas.
- 3. Each utility account requires a complete, separate application. Projects for the same utility account and the same technology being done at the same time should be submitted on one application.

### 4. Requirements regarding applications for existing buildings measures:

• To be eligible for SmartStart Existing Buildings incentives, an applicant must have purchased the subject equipment on or prior to the relevant date set forth below, which is determined based upon which utility is providing the energy saved by the equipment.

| Project Type and Utility Provider   |  | Material Purchase Deadline |
|---|--|----------------------------|
| Gas-only or electric-only savings projects:   | PSE&G Customers:                       | 5/31/2021                  |
|   | All Other Investor-owned Utilities:    | 6/30/2021                  |
| Both gas and electric savings and one   | of the relevant Utilities is not PSE&G | 6/30/2021                  |
| Both gas and electric savings <u>and</u> PSE&G is both the relevant gas and the relevant electric Utility |  | 5/31/2021                  |

- If your equipment is not eligible according to the above, you may visit (<a href="www.njcleanenergy.com/Transition">www.njcleanenergy.com/Transition</a>) for instructions regarding how to find a Utility-sponsored energy efficiency program that may suit your needs.
- Before commencing installation or construction of equipment that will be the subject of a SmartStart application, applicants for the following types of projects must receive either a notification of a successful pre-inspection or a waiver of pre-inspection from the Program Manager:
  - Custom measures; and
  - Prescriptive Lighting seeking incentives ≥ \$100,000; and
  - Lighting Controls seeking incentives ≥ \$100,000; and
- Further, and for the avoidance of doubt, the above requirement does not apply to any other SmartStart application types. However, to be eligible for incentives related to those other application types (i.e., types that are not identified in the bullets immediately above), the application must be submitted to the Program Manager within 12 months of equipment purchase. For example, an application for refrigeration equipment may be submitted at any time up to 12 months after equipment purchase and without any pre-inspection or prior approval from the Program Manager. Sufficient documentation must be provided to the Program Manager confirming date of equipment purchase (material invoice, purchase order, etc.). Despite the flexibility provided above, all applicants are nonetheless strongly encouraged to obtain the Program Manager's approval and an incentive commitment prior to commencing installation or construction. Customers implementing projects without the Program Manager's approval do so at their own risk, including, among other things, the risk of havingtheir project deemed ineligible for incentives.
- 5. In order to be eligible for program incentives, a participating customer or an agent (contractor/vendor) authorized by a participating customer, must submit a properly completed application package that is signed by the participating customer. A complete application package should include all documentation listed in the checklist section of the application.
- 6. Applications signed by someone other than the customer require a letter of authorization.
- 7. Project invoices should list both the labor and material costs separately. The invoice should include a description of the equipment installed, quantity, and unit price.
- 8. For projects that are self-installed by the participating customer, in addition to the material invoices listing the equipment installed, quantity, and unit price, written documentation from the participating customer must be provided in lieu of a labor invoice attesting to the start and end dates of the self-installation.
- 9. Energy-Efficient Measures must be installed in buildings located within New Jersey Utilities' service territory and designated on the participating customer's incentive application.
- 10. Program Incentives are available for qualified Energy-Efficient Measures as listed and described in the Program materials and incentive applications.
- 11. The participating customer must ultimately own the equipment through an up-front purchase. Equipment procured by participating customers through another program offered by New Jersey's Clean Energy Program or the New Jersey Utilities, as applicable, are not eligible for incentives through this program.
- 12. Incomplete application submissions, applications requiring inspections and unanticipated periods of high volume may cause processing delays.

### NJ SmartStart Buildings Program Terms and Conditions – Existing Buildings

FY22 July 1, 2021 - June 30, 2022 v1.1

### **Incentive Amounts**

- 1. Program Incentives will not exceed the lesser of:
  - a. the approved Program incentive amount, or
  - b. the total project cost of the Energy-Efficient Measure.
    - i. Project cost is the expense directly associated with the Energy Efficient Measure, excluding NJ state sales tax.
- 2. Products offered at no direct cost to the participating customer are ineligible.
- 3. Program Incentives are limited to \$500,000 per utility account in a fiscal year.
- 4. Buildings (a) owned or operated by Municipalities, Counties, K-12 Public Schools, (b) located in UEZs or OZs zones or (c) that constitute Affordable Housing may be eligible for an enhanced incentive but are subject to a cap of the applicant's cost for the project (material and labor). Neither Performance Lighting, Prescriptive Lighting, Lighting Controls are eligible for Enhanced Incentives.

#### Inspections

- 1. Pre-Inspection: See Eligibility, Section 4, above.
- 2. Post-Inspection: These projects are subject to the Program's random inspection selection process. The Program must have reasonable access to participating customer's facility to post inspect the Energy-efficient measures installed under this Program.

### **Tax Clearance Certificate Requirements**

- 1. Participating customers must provide a Tax Clearance Form (entitled "Business Assistance or Incentive Clearance Certificate") for Board of Public Utilities use.
- 2. The name of the customer listed on the certificate must match the participating customer name listed on the utility bill and the application.
- 3. The participating customer tax ID listed on the application must agree with the tax ID listed on the Certificate.
- 4. Certificates are valid for 180 days and must be valid on the date the Program Manager signs off on the incentive.

#### **Deficient Applications**

- If an application package is incomplete, information is missing or deemed insufficient, a deficiency notice will be sent to the participating
  customer requesting additional information via e-mail. The information or documentation requested on the email must be received by the
  Program Manager within 30 days of the date of the request. If additional deficiencies are still noted, there will be up to two additional
  notifications issued with the same time frames.
- 2. If a participating customer fails to respond to a deficiency request within 30 days or exceeds the three attempts provided, the application will be rejected.

### **Expirations**

- Pre-approved projects are given a one-year approval in which the proposed measure is to be installed and operational. When a project has
  expired the participating customer will have 30 days to either submit a request for an extension OR submit final project paperwork. If no
  response is received within 30 days of expiration, the project will be cancelled.
- 2. Extension requests must be in writing from the participating customer and include the circumstances that led to the extension request, and the percentage of the project completed.
- 3. Extension requests may be granted for a period no longer than six (6) months. The Program Manager may provide up to two six- month extensions from the original approval expiration date.
- 4. Upon expiration, if the project has not started and the participating customer is still interested in installing the equipment, the existing application will be cancelled.

#### Change in participating customer name/payee after pre-approval

To initiate a change to the participating customer name or payee on an approved application, the following documentation must be provided:

- 1. Documentation from the participating customer authorizing the change
- 2. A new, fully signed application reflecting the updated participating customer or payee name.
- 3. For name change of the applicant/customer, a utility bill in the name of the new participating customer is required.
- 4. All such changes requests are subject to Program Manager approval.
- 5. Certain requests may require additional information to be submitted as defined by the Program Manager.

### Tax Liability

The Program Manager will not be responsible for any tax liability that may be imposed on any participating customer as a result of the payment of Program Incentives. All Participating Customers must supply their federal tax identification number or social security number to the Program Manager on the application form in order to receive a Program Incentive.

#### **Prevailing Wage**

Participating projects with a contract at or above current prevailing wage contract threshold amount set pursuant to the New Jersey Prevailing Wage Act (N.J.S.A. 34:11-56.25 et seq.) are required to pay no less than prevailing wage rate to workers employed in the performance of any construction undertaken in connection with Board of Public Utilities financial assistance, or undertaken to fulfill any condition of receiving Board of Public Utilities financial assistance, including the performance of any contract to construct, renovate or otherwise prepare a facility, the operations of which are necessary for the receipt of Board of Public Utilities financial assistance. By submitting an application, or accepting program incentives, applicant agrees to adhere to New Jersey Prevailing Wage requirements, as applicable. By signing the application, the signatories agree to comply with the provisions of the New Jersey Prevailing Wage Act, N.J.S.A. 34: 11-56.25 et seq., (Act), if and to the extent that Act may apply to the work covered by the application.

More information can be found at https://www.nj.gov/labor/wagehour/regperm/public contracts general.html

#### Endorsement

The Program Manager and Administrator do not endorse, support or recommend any particular manufacturer, product or system design in promoting this Program.

### NJ SmartStart Buildings Program Terms and Conditions – Existing Buildings

FY22 July 1, 2021 - June 30, 2022 v1.1

#### Warranties

THE PROGRAM MANAGER AND ADMINISTRATOR DO NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, AND/OR SERVICES RENDERED AS PART OF THIS PROGRAM, EITHER EXPRESSLY OR IMPLICITLY. NO WARRANTIES OR REPRESENTATIONS OF ANY KIND, WHETHER STATUTORY, EXPRESSED, OR IMPLIED, INCLUDING, WITHOUT LIMITATIONS, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING EQUIPMENT OR SERVICES PROVIDED BY A MANUFACTURER OR VENDOR QUALIFY. CONTACT YOUR VENDOR/SERVICES PROVIDER FOR DETAILS REGARDING PERFORMANCE AND WARRANTIES.

### Limitation of Liability

By virtue of participating in this Program, Participating Customers agree to waive any and all claims or damages against the Program Manager or the Administrator, except the receipt of the Program Incentive. Participating Customers agree that the Program Manager's and Administrator's liability, in connection with this Program, is limited to paying the Program Incentive specified. Under no circumstances shall the Program Manager, its representatives, or subcontractors, or the Administrator, be liable for any lost profits, special, punitive, consequential or incidental damages or for any other damages or claims connected with or resulting from participation in this Program. Further, any liability attributed to the Program Manager under this Program shall be individual, and not joint and/or several.

#### **Termination**

The New Jersey Board of Public Utilities reserves the right to extend, modify (this includes modification of Program Incentive levels) or terminate this Program without prior or further notice.

#### Participating Customer's Certification

Participating Customer certifies that he/she purchased and installed the equipment listed in their application at their defined New Jersey location. Participating Customer agrees that all information is true and that he/she has conformed to all of the Program and equipment requirements listed in the application.

### Acknowledgement

The applicant hereby permits the Program Manager and the administrator of the New Jersey Board of Public Utilities (BPU) New Jersey's Clean Energy Program (NJCEP) to share any and all information the applicant submits to NJCEP, including, but not limited to, the applicant's electric and natural gas utility billing information, with BPU NJCEP contractors (including, without limit, those contractors who administer, manage, coordinate, or evaluate all or part of NJCEP) and his/her electric and natural gas utilities and the contractors who administer, manage, coordinate, or evaluate all or part of the utilities' programs that succeed and/or are similar to NJCEP. The applicant hereby acknowledges that the Program Manager and administrator may disclose to the public any of my information that is not exempt from public disclosure pursuant to the Open Public Records Act, N.J.S.A. 47:1A-1 et seq.

#### **Enhanced Incentive**

The Enhanced Incentive does not apply to Prescriptive Lighting, Performance Lighting or Lighting Controls. See details and eligibility requirements on the applications.
