

SREC Registration Program (SRP) Closure and Transition Incentive Program UPDATE

The following summarizes SREC Registration procedures related to the July 30, 2020 deadlines:

To remain eligible for SRECs you are required to either:

1. Submit in the [SRP online portal](#), no later than **July 30, 2020 at 11:59:59 pm EST**, a complete SRP Post Construction Package with a permission to operate dated on or before April 30, 2020, **or**
2. Submit no later than **July 30, 2020 at 11:59:59 pm EST** a request for a waiver of the deadline for obtaining a PTO and local inspection as described below.

Case 1: Submit a Complete SRP Post Construction Package with Permission to Operate (PTO) by April 30, 2020

Any SRP project that has not submitted a complete Post Construction Package with a PTO dated on or before April 30, 2020 by **July 30, 2020 at 11:59:59 pm EST**, or that has not applied for a waiver to this deadline, will no longer be eligible for SRECs and will automatically be transferred to the Transition Incentive Program and be required to complete their application in the TI portal.

On **July 30, 2020 at 11:59:59 pm EST**, projects under the SRP statuses Pending Uploads and Possible Duplicate are not considered active and will be cancelled in SRP and will be required to reapply under the TI Program. Projects under the status Final As-Built Received-Incomplete, will be transferred to the TI portal regardless of the date of their permission to operate and will be required to complete in the TI portal.

Case 2: Request for Waiver to Extend the Deadline for SRP Registrations to Obtain Final Inspection and Permission to Operate (PTO) for Projects Impacted by COVID-19

For purposes of SREC eligibility, projects that were mechanically complete by 4/30/2020 and that would have received the final inspections necessary to reach PTO by 4/30/2020 but for delays due to the COVID-19 State of Emergency may apply for a waiver of the 4/30/2020 PTO deadline.

The deadline for submitting a PTO Waiver Request in the SRP online portal is **July 30, 2020 at 11:59:59 pm EST**.

If you are granted a PTO Waiver Request, you will have ninety (90) calendar days following the end of the Public Health Emergency or State of Emergency established by Executive Order No. 103 , whichever ends later, to submit a complete Post Construction Packet with PTO in the [SRP online portal](#). This waiver **DOES NOT ALLOW** projects to energize prior to receiving local code compliance approval and a PTO from the EDC.

If a complete Post Construction packet and PTO is not submitted within the ninety (90) days following the end of the Public Health Emergency or State of Emergency referenced above, you will not be eligible for SRECs and your application will automatically be transferred to the Transition Incentive Portal and be required to be completed in the TI Program.
